Shareholders' comments and questions:

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : Please explain in the notes to financial statements no. 35, page 279.

1. The consultant expenses increase from 42.7 million baht to 86.88 million baht.
2. Did the allowance for doubtful debt come from Lao's Rock Salt Processing project?

3. Did the construction supplies and subcontractor charges come from the cost of raw materials?

Answered by : Ms. Saowaluck Ngamdutsadee-apirom, Chief Finance Officer

Answer : The reason for the Company gross profit had a loss. It came from unlock of Lao's Rock Salt Processing project. Therefore, Construction costs were increased approximately 243 million baht and Qatar project approximately 250 million baht.

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : If the Company deducted the allowance for the doubtful debt of any project, the Company will have a profit approximately 5%. And the allowance for the doubtful debt recording does not mean that the Company will not receive this payment.

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : This transaction may be a one time record. For EPC business, the Company still has a profit. But negative result came from Lao's Rock Salt Processing project.

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : Is the core business of the Company an EPC? How much does your company get ranking? How much is it worse than previous year? When will the Company be able to resume?

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : The Company is a construction sector.

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : The Company is a middle ranking about level 7-8. According to the previous year, the Company had a problem from Lao's Rock Salt Processing project. And the auditor has issued the financial statement with qualified opinion. However, the Company has a new contract of approximately 16,000 million baht. The main clients are PTT, SCG, and Thairoil that they are a leading company. Loss from previous year was in term of the accounting. The unpaid debt of Lao's Rock Salt Processing project is approximately 2,500 million baht. The Company has not received payment more than 2 years. However, the Company could operate the business as normal and has been trusted by project owners and financial institutions. In the meantime, Sojitz has acquired approximately 9.09% of shares.

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : In the past, the Company has been better than current. The reason from Lao's Rock Salt Processing project affects the Company operation. However, it does not mean that EPC's ability is reduced. The lessons from the past will make the Company improve more.

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : The employee benefits have a new act on the employee compensation increasing who have worked for 20 consecutive years from 300 days to 400 days. Does the Company set up this expense? If it is not recorded, will it affect the performance in 2019?

Answered by : Mr. Paibun Sribanphai, Accounting Specialist

Answer : The Company has not been set up yet because the law has not effective at that time. The calculated amount from the actuary was approximately 30-40 million baht

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : When will the Company collect the remaining debt amount 2,500 million baht?

Answered by : Ms. Saowaluck Ngamdutsadee-apirom, Chief Finance Officer

Answer : Now, we are working on the arbitration process. According to consulting with the legal team, the prosecution period is approximately 5-7 years.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : The projects had received in year 2018. How much did the Company recognize in year 2018?

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : The MOCD2 project was awarded in year 2018 and recognized the revenue in 2018 approximately 5%, waiting to be recognized 95%. The Package of LLDPE Plant of LSP Complex project recognized in year 2018 approximately 10%. The remaining 90% will be recognized during 2019-2021.

The construction value was recognized at the end of 2018 is approximately 17,700 million baht by 50-55% will be recognized in 2019 and the rest will be recognized in 2020. Currently, the total value of the bidding project is 52,000 million baht. Auction winning statistics is 1 of 3 or approximately 17,500 million baht.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : If we are awarded in bidding project, do we have the ability to do it?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : Engineers or the number of employee are in the ability to do it. And the additional information about bidding project, it excludes own investment project.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : As the Company has mentioned that the investment project does not include in the bidding project. How much is the value of the investment project?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : Approximately 15,000 million baht.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : How many is the minimum of IRR investment?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : The minimum rate is approximately 13%

Questioned by : Ms. Budsakorn Ngarmpasuthadon, Shareholder

Question : 1. How much is the profit margin for the new bidding project in year 2018?
2. What is the proportion of revenue increasing from power plants for the next 3-5 years?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : 1. The profit margin of the EPC business is approximately 5-7%.
2. The Power Plant has fully operated in year 2018. The gross profit is approximately 450 million baht.

Questioned by : Ms. Budsakorn Ngarmpasuthadon, Shareholder

Question : How about the trend of petrochemical projects increasing for next 3-5 years?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : Currently, trends in Thailand will have more investment. It might be impossible, if we expect to be as year 2011. But it is considered to have an increasing rate. For TTCL, looking for construction project in Thailand

to expand is not enough. The Company has a solution to expand the other business. According to Sojitz joining in TTCL, The Company plans to invest for construction projects in other regions onwards.

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : Additional information about bidding project with Sojitz is approximately 7,500 million baht and expected to recognize within half year 2019.

Question : The CEO doesn't get the bonus payment as well, does he?

Answer : Yes.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : Is there Risk Management Committee in the Company?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : Yes, there is.

Question : Why there is still the net loss of THB 2,500 million even the Company has Risk Management Committee. What is the flaw that causes the net loss?

Answer : The Company has considered risks. However, the project which is considered at that moment is the project from State Enterprise of Vietnam which invests in Laos, yet the Company does not expect that such problem will be occurred with this project too. So, this situation will be one of the risks that the Company takes it as the case studies onwards.
Therefore, it needs cost to avoid a risk, so, in the future, the Company may consider for the cost that would increase or the awarded contract that would decrease. Thus, the Company has to consider the risks in processing each project or getting new contract as well.
Moreover, the Company has considered the project and found out that there are few risks since it is the project from Vietnam's State Enterprise and to

be a customer that has previously worked with the Company in several projects.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : Does the Company have recurring income such as income from power generation? It is the fixed income, the higher recurring income would be better than the income from normal EPC businesses which are with the unsteady characteristic that causes a lot of risks.

Answered by : Ms. Suratana Trinratana Executive Director

Answer : The Company is recently considering this matter to make the fixed income in cash flow and considering for investment as well.

Question : Despite of consideration, is there any action plan?

Answer : The Company is working on this matter too; yet getting the power plant contract is not easy, so the Company is in process of considering such matter.

Questioned by : Ms. Rungrueang Ngaongamratana, Shareholder

Question : Does the Company have working process on the projects as described in the newspaper a long time ago?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : About the power plant, the Company is considering about investment in order to get concession. Moreover, the Company could not get the concession instantly because it needs to consider about the number of considered projects which. So, the Company is in the process of project feasibility study in order to work on this matter as well.

Shareholders' comments and questions:

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : Would you explain Non-Audit fee which increases from 3.56 million to 6 million in 2019?

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : The fee is caused when TTCL expands itself to the amount of 17 subsidiaries. Therefore, this matter could be distinguished into 2 main factors such as;

1. The accounting of each subsidiary is not proficient much.
2. There is consolidation of the information between subsidiaries and the Company so that it needs to have consulting service from the Auditor in order to manage the information.

Question : It means that there was the estimation of 6 million Baht in the previous year but actually paid in Baht 3.5 million, doesn't it?

Answer : The Company did estimate at 6 million Baht and actually pay 3,563,000 Baht in the previous year. Moreover, we would like to clarify about Non-Audit fee as it concerns in Thai Financial Reporting Standards (TFRS) 15 "Revenue from Contracts with Customers". So, this could answer about expenses in Annual Report page 279. Accordingly, the Company estimates for the year 2019 as well.

There was no any query from shareholders. The Chairman asked the meeting to cast their votes in this agenda. Resolution in this agenda must be approved by not majority vote of the shareholders attending and having the right to vote.

Resolution : The Meeting approved the appointment of the auditors from PriceWaterHouseCoopers ABAS Limited. as the Company's auditors for the fiscal year ended December 31, 2019, where any of the following auditors shall be authorized to audit and giving suggestion to the financial statements of the Company:

Shareholders' comments and questions:

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : As the Company has issued the subordinated bond with no maturity date at interest rate 8.75% p.a., why is the interest rate more expensive than other bonds? Does the Company lose reliability?

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : The issuance of subordinated perpetual debentures (perpetual bond) as issued the perpetual bond, the Company referenced the 5-year Government Bond Yield which equal to 2.23 and initial credit spread equal to 6.52 p.a. when combining the interest rate is equal to 8.75 p.a.. The reason of the interest rate this type is more expensive than other types that the Company has the right to suspend or postpone interest payment by accumulation and no scheduling for principal repayment or the Company has the right to unpay principal. Therefore, the high interest rate can compensate the risk of this debenture and at that time, the Company has issued this debenture with company credit rating at BBB- when compare with the previous debentures were issued with company credit rating at BBB+ which is 2 levels more. That is the main reason of the interest of this debenture is higher than other debenture.

Questioned by : Ms. Vipa Suvanit, Shareholder

Question : In cases, the interest payment is special condition. Unpaid interest in that year will be able to accumulate or not, and is it necessary to pay interest on the interest or not?

Answered by : Mr. Boonyakrit Saowan, Deputy General Manager Finance and Investor Relations

Answer : When the interest payment is due but the Company postpones the payment, the accrued interest will be accumulated and doesn't have interest on the accrued interest.

Resolution : A resolution was passed to acknowledge the results of the Company's operation for the year 2018.

Remark : This agenda item is for acknowledgement and no vote casting is required.

Agenda 9 Other business (if any)

The Chairman informed to the meeting that the resolution of the Board of Directors no. 3/2019 held on April 10, 2019 to call the Extraordinary General Meeting of Shareholders no. 1/2562 to consider the disposal of investment in the ordinary shares of TTCL Gas Power Pte. Ltd. (“**TTGP**”), an indirect subsidiary of the Company, held by TTCL Power Holdings Pte. Ltd. (“**TTPHD**”), a subsidiary of the Company in which the Company directly holds 100 percent of the total shares of TTPHD, in the total amount of 29,700,000 shares, representing 60 percent of the total shares of TTGP to two potential investors both of which are not connected persons of the Company (collectively be referred to as the “**Investors**”), totaling USD 85,000,000. Each of the Investors will purchase 30 percent of the total shares of TTGP.

The Chairman invited questions / recommendations from shareholders.

Shareholders’ comments and questions:

Questioned by : Mr. Somkiat Chalermisarachai, Shareholder

Question : Does TTGP hold TTPMC 95% and what project has TTPMC obtained concession in Myanmar? Because TTCL will be diluted 60 percent.

Answered by : Ms. Suratana Trinratana Executive Director

Answer : TTGP holds 95% of shares in TTPMC power plant (121MW). The disposal of investment is not related to new power plant. For the new project, the Company has set-up TTLP to hold LNG power plant (TPMC) and will use the same concept as follows;

1. Shareholding in the existing Ahlone power plant (TTPMC) was held by TTGP 95 percent and was directly held by TTCL 5 percent.
2. Expectation of shareholding in LNG power plant (TPMC) was held by TTLP 95 percent and was directly held by TTCL 5 percent.

After the disposal of investment in TTGP 60 percent, TTCL holds in TTPMC shares approximately 43 percent which slightly impacts the Company revenue. On the other hand, the disposal of investment of TTPMC will be used for the new power plant (LNG project) and TTCL will get EPC contract of THB15,000 million.

Questioned by : Mr. Somkiat Chalermisarachai, Shareholder

Question : Is the value of THB 15,000 million for the 388MW power plant?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : The total investment of 388MW power plant is approximately USD 620 – 640 million and EPC is approximately USD 470 million.

Question : Represent that we are quite confident that this project definitely moves forward. As I ask because some shareholders would like the Company to have certain income but we are going to dilute certain income and the last year, we got the full year income from 121MW power plant. The Company did highly expect that PPA would be obtained for the Ahlone Expansion Project very soon. Therefore, the Company decided to spin off the existing Ahlone Project and to invest in new project.

Answer : As company has to prepare in advance because PPA has been negotiating for 1 year if company hasn't decide to dispose of this investment, we have to prepare financing for equity portion of USD 200 million. The rest, company is looking for strategic partners and another component for investment.

Question : 1) As you told that TTLP will hold TPMC for investment in Ahlone Expansion. Is margin near Ahlone Existing? Approximately 46 percent.
2) What is the progress of Coal fired power plant 2 projects?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : 1) The production structure of Ahlone expansion isn't the same as Ahlone Existing because the gas is supplied by Ministry of Electricity and Energy (Myanmar Government) but this project the Company will import LNG.

The margin we have to look at financial model, but from our study IRR is at 13 percent. For the Ahlone Existing we don't have to pay the gas but for this project company has to import LNG. Anyway, it is a good part of our side so that we can study for next project.

2) At the present, Coal fired power plants have been suspended because the new government has focused on LNG project. In the past year, they gave LNG project totaling 4 projects which the really active is our project and the Company expected that we will be the first one to sign PPA. As asked, has the Coal still being done? We don't stop as the contract is no expiry but depends on whether they will bring the project back into their policy or not. I keep track of when to post their policy which we have to wait and ask about policy. However, now we are focusing on LNG project.

Questioned by : Mr. Somkiat Chalermisarachai, Shareholder

Question : The last year in AGM meeting, we mentioned spin-off of TTCL Power Holding. How is the scheduling?

Answered by : Ms. Suratana Trinratana Executive Director

Answer : We are still doing but it takes a long time which expected that will be completed next year because we have to looking for the funding. However, we must to realize the most benefit of the Company.

Question : Will the schedule of spin-off comply with 388 MW project?

Answer : Yes, because 388 MW project will be start around Q4 of this year or Q1 of next year.

Questioned by : Ms. Maliwan Chittreeyattham, Shareholder

Question : I hold TTCL shares since TTCL listed in the Stock Exchange of Thailand. In the past, the Company had dividend and profit why in the present the Company doesn't have profit. Business must grow up. Just now, you mentioned about the power business and yesterday I attended to another company meeting with, doing business about natural energy in Japan and also joint venture with Japanese company to do the wind turbine power plant but you are Japanese why don't invest in there and they can make a profit. Therefore, may you encourage yourself and I will support you in

order to receiving dividends because we used our savings for investing with you to receive dividends better than bank interest.

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : We tried our best not only our benefit but actually is for shareholders' benefit.

Questioned by : Ms. Chayaleart Wittayakorn, Shareholder

Question : How does the role of new shareholder, Sojitz contribute to TTCL?

Answered by : Mr. Hironobu Iriya, Chairman of the Board and President and CEO

Answer : Since Sojitz jointed our company, they hold 9% of shares and after that we have several discussions for cooperation and we are collaborating several areas not only Thailand because Sojitz is very strong outside market of Thailand. Now we are talking about Russia project and also Central Asia project, we are under discussion. Of course, it hasn't yet received all projects immediately. However, we will try to collaborate with Sojitz to get EPC outside Thailand. That's our idea and also for a people, I asked Sojitz people come in our sales department, already come in one Japanese people to reinforce sales activities outside Thailand.

Answered by : Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee

Answer : According to the President has explained about Sojitz what they contribute to TTCL, Sojitz has strength in the international market and if you search the internet you will see that Sojitz has a variety of businesses. What the President expects from Sojitz is overseas EPC including management skills and capabilities which currently the management of Sojitz has already come to management to be stronger.

There was no other questions, Mr. Sivaraks Pinicharomna, Independent Director and Chairman of Audit Committee who preside over the meeting invited Mr. Hironobu Iriya, Chairman of the Board and President & CEO to close the meeting.

Mr. Hironobu Iriya, thanked all shareholders for attending the meeting and their providing beneficial recommendations to the Company.
